Adapt your workspace today

Return to Work Safely

Spaces must adapt quickly to minimize the spread of COVID-19, and keep employees healthy.

Enwork offers a complete catalogue of innovative products, in safer materials and dimensions, to support the new needs of today.

A Paradigm Shift in Planning

Organizations are faced with the need to modify layouts to maximize the distance between occupants, and define personal space. New products are available to help contain and block airborne particulate. Solutions range from immediate and recyclable, to customizable and long-lasting.

24"H Screens with roof feature for particulate containment.
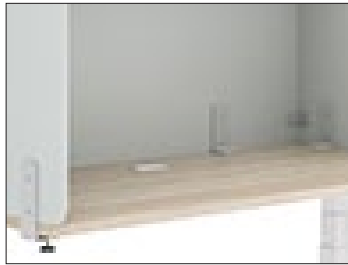

Hand-fasteners.
Easy to install and remove.
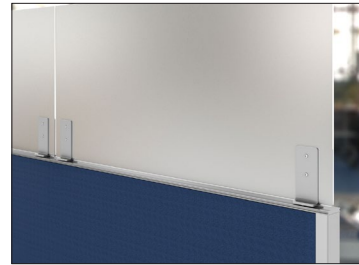

Skyline Magnetic Topper Panel. Instantly add 24"H.

Wrap desks to reduce the spread of airborne germs.

Separate workers with freestanding screens.

Rotate workers 90-degrees from beam to eliminate face-to-face work.

Standing height products with bleach-cleanable surfaces.

Meeting tables in new shapes with antimicrobial surfaces.

Training tables that separate students. Available in anti-microbial surfaces.

Material Innovation & Cleanable Surfaces

Enwork offers a complete collection of high-performance materials specifically designed to combat and minimize exposure to COVID-19.

Antimicrobial WilsonArt HD Laminate

Wilsonart® HD® Laminates with Antimicrobial Protection include a silver ion antimicrobial agent built into the laminate to protect the surface by inhibiting the growth of stain and odor-causing mold and mildew.

Perfect for training, conference, café, and meeting tables. Standard on all Enwork product and quoting today.

Why use Wilsonart Antimicrobial Laminate?

| It's Proven Technology.	Silver ions kill cells.	It resists stains and scratches.	It is active 24/7.
Classified as a treated article, silver ion additive is registered with the EPA to demonstrate that it is both safe and effective.	On contact, silver ions diminish cell function resulting in death.	Surfaces inhibit growth of bacteria, mold, and mildew, which cause stains. Also includes AEON(TM) enhanced scratch and scuff-resistant technology for increased durability.	Protection is built into the surface and will not wash off or wear away over time.
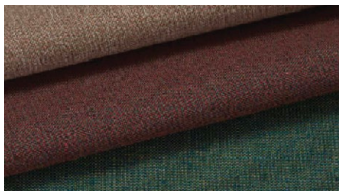

High Performance Textiles

- Bleach Cleanable
- Antimicrobial & antibacterial
- For panels and cushions

Quartz surfaces

- Bleach cleanable
- For conference and common spaces
- 8 designs in stock
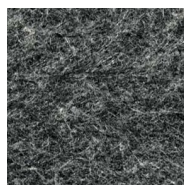

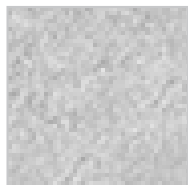

Acoustic PET Material

- Cleanable with bleach solution and other disinfectant sprays and cleaners
